

Prof. Dr. Henrik Schultz, landscape architect

INNOVATIVE TEACHER AND PRACTITIONER IN RESILIENT LANDSCAPE DESIGN

PASSIONATE PIONEER OF DESIGN RESEARCH

EXPERIMENTAL WALKER AND PATH-MAKER

STRONG TRANSDISCIPLINARY NETWORKER AND COMMUNICATOR

EDUCATION

- 01/2009 – 06/2013 **PhD fellow at the Leibniz University of Hannover,**
Institute for open space planning and design, Department of architecture and landscape sciences
Dissertation summa cum laude / graduated with distinction:
Designing large-scale landscapes through walking
Committee: Prof. Dr. Hille von Seggern, Prof. Dr. Martin Prominski, Prof. Jörg Schröder, Prof. Christian Werthmann
- 10/1997 – 10/2003 **Student of landscape architecture at the Leibniz University of Hannover,**
Department of ecological planning and landscape design
Graduated with distinction
Diploma thesis: Frankfurt. City as succession
Committee: Prof. Dr. Hille von Seggern, Prof. Dr. Thomas Sieverts

RESEARCH

- since 2021 **EN ROUTE: Rethinking mobility and education in times of digitalisation and climate change. Living labs for sustainable practices of being en route.**
Funded by State vor Lower Saxony
- since 2018 **Produktiv. Nachhaltig. Lebendig. Grüne Finger für eine klimaresiliente Stadt.**
Research Project at Osnabrück University of Applied Sciences, funded by BMBF
<https://gruene-finger.de/projekt/>
- 6/2016 **“Experimentierfeld Dorf”**
Guided walk and workshop „Reading, telling, understanding landscapes“
Interdisciplinary research project, invited by Prof. Dr. Sigrun Langner (Bauhaus Universität Weimar), funded through Volkswagenstiftung
- 10/2014 – 12/2015 **Researcher “Let’s walk urban landscapes – New pathways in design research”**
Design and organisation of international scientific conference, 1–3.09.2015, funded by Volkswagen Foundation. Talk “Why walking? Engagement and ideas”, facilitation of workshop “Wandern” and reflection team, together with Prof. Andrea Kahn, Columbia University New York
- 09/2012 – 12/2012 **Researcher “Rasterfahndung. Understanding and designing regions”**
Research experiment, Studio Urbane Landschaften, funded by Montag-Stiftungen
- 03/2009 – 11/2010 **Project manager “Raumperspektiven ZukunftsLAND“**
Research and design study, funded by Sparkasse Westmünsterland
> lecture “Making regional spatial potentials visible” at conference “Spatial strategies as a link between strategic objectives and tangible spatial projects” TU Munich, workshop by Prof. Dr. Alain Thierstein, 25.02.2010
> lecture “Finding a common language – metaphors in communicative design processes” at conference “Raumbilder für das Land”, KIT, Eberbach, 08.10.2010, followed by publication
- 02/2006 – 06/2008 **Project manager “Spatial vision ‘Côte du Sud’, South Luxemburg”**

Research and design study, funded by EU programme SAUL

> lecture "Perceiving urban landscapes. SAUL. An experiment in South Luxemburg, at conference "Beredte Sprachlosigkeit?", 19.05.2006

> lecture "Large scale landscape design" at DASL Annual conference, 10.10.2009

01/2006 – 07/2008 **Researcher "Stadtsurfer, Quartierfans & Co – Movement in, perception and use of urban spaces by youths"**

Research project of Studio Urbane Landschaften, funded by Wüstenrot Foundation

02/2000 – 06/2000 **Project manager "Conservation commission land"**

Research project, Massachusetts Association of Conservation Commissions (MACC), Boston

WORK

2018 **Founder of Landschaft3***
www.landschaft3.de

2005 - 2017 **Co-founder of Stein+Schultz, Frankfurt am Main, Germany**

Projects in the field of landscape design

Projects, e.g.:

System of paths for Munich's Green Belt

Design for the green belt's paths incl. designs for specific areas, walks with stakeholder. Commissioned by the City of Munich, since 2017

Cologne and it's western neighbours. Spatial vision 2035

Concept and facilitation of the process designed for the program „Stadt-Umland NRW“, since 2017

Member of commission of experts „Conversion Campbell Barracks“

International Building Exhibition, Heidelberg, Nationale Projekte des Städtebaus, 2017

Parklandschaft 2.0

Design for strategic guidelines and visions for the landscape of the Münsterland. Commissioned by Regionale 2016 Agentur, since 2016

Green Masterplan Freiburg (Perspektivplan Freiburg)

Analysing current situation of the growing city of Freiburg, visualizing potentials, designing strategies and discussing scenarios. The result is a spatial vision fostering strategic, integrated planning. Together with cityförster and freiwurf. Commissioned by the City of Freiburg, since 2014. www.perspektivplan-freiburg.de

New perspectives for rivers, Manual, Project manager

Designing scenarios for the sustainable development of rivers, finding solutions for flood control, providing opportunities to experience rivers. Stein+Schultz (large-scale landscape design, process design), Koenzen (river assessment), farwick+grote (architecture and urban design) and landinsicht (visualization). Commissioned by Regionale 2016-Agentur, since 2011.

Strategies for the periphery of Munich, Project manager

Analysing landscape components, finding strategies and designing spatial vision and landscape stories based on assessment of the landscape's characteristics. Drawing up plans to integrate 12,000 new housing units on the north-eastern periphery of Munich (800ha). Combining strategic thinking and site-specific design work. Stein+Schultz, cityförster, landinsicht, freiwurf, 2011-2012

"2Stromland" – paths of the urban landscape of the future

Finding strategies for the landscape of the future, visualising the insights in maps and sketches. Applying the concept of ecosystem services in order to bridge the gap

between strict landscape protection and land use development and working with real life experiments. Stein+Schultz, 2008 – 2013

10/1999 – 1/2000 **Project manager at Dudley Street Neighbourhood Initiative (DSNI), Boston**
Concept for the brownfields of Roxbury, Boston; gardening workshops with citizens

TEACHING

since 9/2017 **Professor at University of Applied Sciences, Osnabrück**
Landscape Planning, Regional Development

2016 **Lecturer at Stuttgart University, Institute for landscape planning and ecology, Prof. Antje Stokman**
Summer school "Update Wolfach"

2004 - 2017 **Lecturer at Leibniz University of Hanover, Institute for open space planning and design, Prof. Dr. Hille von Seggern / Prof. Dr. Martin Prominski**
Seminars, lectures, excursions and studios for bachelor and master students, testing and teaching new ways of navigating, exploring, walking, drawing and designing urban landscapes
Example: Studio "Unterwegs entwerfen", exploring and designing the periphery of Hamburg, 2009
Example: "Experimental Interventions in South Luxembourg", studio and student competition, implementation of five winning design proposals, 2006

NETWORKS / FELLOWSHIPS

since 2015 **Bridge to the future.** Fellow, Chinese-German Young Professional Campus
Sponsored by Mercator Program Center for International Affairs and BMW Foundation Herbert Quandt
<http://www.mpc-international.org/de/Programme/Zukunftsbruecke-Chinese-German-Young-Professionals-Campus.htm>

2016 **World Responsible Leader Forum** of BMW Foundation Herbert Quandt
<http://www.bmw-stiftung.de/en/5th-world-responsible-leaders-forum>

since 2010 **Close cooperation with cityförster - network for architecture**
<http://www.cityfoerster.net>

since 2004 **Studio Urbane Landschaften**, Full member
www.studio-urbane-landschaften.de

:: Publication list and lectures see landschaft3.de
